26-29 APRIL 2023

MMO TEPEKULE CONGRESS AND EXHIBITION CENTER - İZMİR

www.teskonsodex.com

Meeting of HVAC&R Sector in Aegean Region

8th Meeting of Heating, Refrigeration, Air Conditioning, Insulation, Pump and Valve Sectors in İzmir

Why teskon+SODEX?

- Important trade potential of İzmir.
- Organised by Hannover Messe Sodeks Fuarçılık A.Ş., the organiser of the leading trade fair of Eurasia Region in HVAC&R sector.
- Aim of bringing together the leader manufacturers of the sector with the professional buyers.

Why İzmir?

- Attraction point for international companies' big scale investments.
- The city has rich renewable energy resources especially for wind, geothermal and solar energy.
- It is highlighted as an important port and an important trade city.
- It has a lot of advantages like as qualified workforce, raw and intermediate resources, climate, developed infrastructure, a business environment focused on international trade and being close to internal and external markets.

According to TİM Exports data, İzmir's total exports in 2021 12 billion USD, the total of the Air Conditioning Industry its export is 478 million USD.
